MADE IN CHINA

XAEGISTAC

Tactical Vest Magnetic One Touch Disassembly

Instructions For Use

Magnetic tactical vest is designed with magnetic fasteners on the shoulders and waist, press the button on the chest and pull the vest to make the fasteners come off for quick disassembly; simply reattach the fasteners to the vest and it will be fixed automatically by the magnetic force, making the installation and disassembly even easier and faster.

The inner sandwich design can be used to install different materials of tactical plates, which can provide good protection, and the bottom has velcro straps to fix it more firmly.

Please press the button to the bottom, and then release the button after the fixing buckle comes off!
Please do not pull the connection cable of the magnetic buckle to avoid damage to the magnetic system!
